

EDITION 1/2024

MEBLE *Wojcik*

Everyone dreams of a unique, homely interior. A space where it is a pleasure to spend time in and relax in. Beautiful, cosy, arranged in a style that makes us feel good. A style that reflects how we live and what we need. How do you find it and choose the one that suits you best? How do you create your own style and furnish your home based on it?

Just as you like!

In Meble Wójcik we know that the element that affects the final appearance of a home is furniture. They create the interior, which is why we focused on diversity and the highest quality when designing each collection. We want everyone to find something for themselves in our offer. Furniture that will perfectly match both traditional and modern arrangements, as well as smaller or larger rooms.

If you are looking for an idea for your interior and you expect your furniture to be not only interesting in terms of design but also functional, please see our catalogue and take a look at our collections. For more interior design inspiration and advice on interior design styles, please visit our website www.meblewojcik.pl on our social media and on the blog „Jak umeblować i nie zwariować”.

cabinet type BROK04, extendable table type MWST04, display cabinet type BROV01L, shelf type BROP01, TV cabinet type BROK01, bookcase type BROR01, coffee table type BROT01

modern and stylish

The Brolo collection is the essence of modernity thanks to the innovative material used in the fronts of individual pieces. The MDF board is mass dyed and covered with gloss white foil and then milled in geometric shapes to expose the black inside of the board. This unique effect looks warmer thanks to the beautiful wooden color of the body, resulting in a very designer look.

nostalgically...

Most of us well remember the rocking, bent armchairs with rattan seat from the communist era. Today, it is a design classic that is making a triumphant return, just like the material itself, rattan. The Cestino collection draws on this trend but in a modern and stylish version. Furniture fronts with a print imitating rattan is a practical solution, easy to clean and at the same time create a slightly nostalgic atmosphere for a classic dining room or living room.

display cabinet type CNAV01, shelf type CNAP02, TV cabinet type CNAF03

display cabinet type CNAV01

traditional and timeless

The warm oak color, metal, rustic handles, and the large construction of the fronts resemble classic wooden furniture. The glazed sides of the display cabinets, which can also be backlit, break with tradition and make the sturdy units visually more delicate. The pleasure of using the furniture is increased by the soft-close mechanism of the drawers and fronts.

warm and cosy

Interior design trends come and go. But there's something that never changes – simple shapes and natural wood. Spaces furnished with pieces from the Fribo collection feel wonderful thanks to the warm shade of Golden Ribbeck Oak. The distinctive features of the programme include lightly textured, smooth fronts, full-extension slide drawers, and a handleless system. Fans of minimalism will love the collection in white.

always trendy

Wooden decors have the charm that, despite changing trends, still reign supreme in our interiors. We appreciate cozy spaces that invite us to relax and lounge, and the Grano collection is a perfect example of that. Cold shade of oak combines admirably with dark gray elements creating elegant contrast. The Grano collection fits harmoniously with both intense and pastel colors of walls and accessories. Rounded fronts and lit up glazing establish an atmosphere of style and comfort.

elegant subtlety of gold

It could be argued that a lot has already been said about white furniture. Lazio, however, can't be compared to any other, thanks to its original golden inlays. Golden, metal handles and back panels in display cabinets, gorgeous illuminations that supremely bring out the noble shine — these contribute to unobvious glamour, full of elegance and class.

rising star

Undeniably the most distinguished and elegant out of all our collections. A noble combination of matte black and gold is synonymous with luxury, and we cast a touch of light that superbly emphasizes the warmth of the golden inlays. It's impossible to pass by this collection indifferently - it catches your eye and creates an aura of uniqueness, dresses the interior like the most luxurious nightgown which we put on, wanting to feel special. Your interior is worth it.

sage rage

Sage green - it's an absolute favorite of the upcoming seasons. Where did the sage rage come from? It's the versatility - it perfectly matches wooden shades, black and graphite, and combines wonderfully with cozy beige tones. All in all, it's an ideal foundation to create a cushy but also modern interior. In the Pozzi collection, the green was beautifully combined with oak-colored fluted sliding fronts. Functional and practical - you cannot see fingerprints on them.

many possibilities

The name of the collection itself invites you to have fun - play with furnishing. It's child's play, because the shapes are easy to combine, creating original sets for the living room, youth room, office corner or studio apartment. A universal collection with an extremely fashionable groove motif - here in the form of a digital print that closely resembles wooden slats. However, when it comes time to clean dust from the furniture, the flat front will certainly gain admirers.

asymmetrically combined

There are many furniture variations of this popular combination of white and wood decor. Why? Because this combo simply works in interiors. White brightens up and brings a modern feel to the room, while the wood pattern adds cosiness and warmth. In our edition, this combination is emphasised with a black accent, which runs asymmetrically along one side of the furniture. Do you also get the impression that a piece of wood is ,sticking out' of a white furniture?

SHETLAND

BODY AND FRONT/FEATURE
Shetland Oak/Gray

desk type 80, cabinet type 41

**more
than good design**

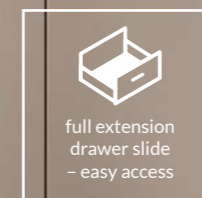

Dive into modern design with our Shirley collection. The fluted fronts in oak color, enriched with black printed vertical lines, establish a dynamic duo which superbly harmonizes with the metal legs of the furniture. That makes the furniture seem light, despite its industrial character. It's worth mentioning that raised furniture allows for easier vacuuming underneath, even with a cleaning robot. Another practical feature are doors with a soft close system, significantly affecting the comfort of use.

metal frame

green alternative

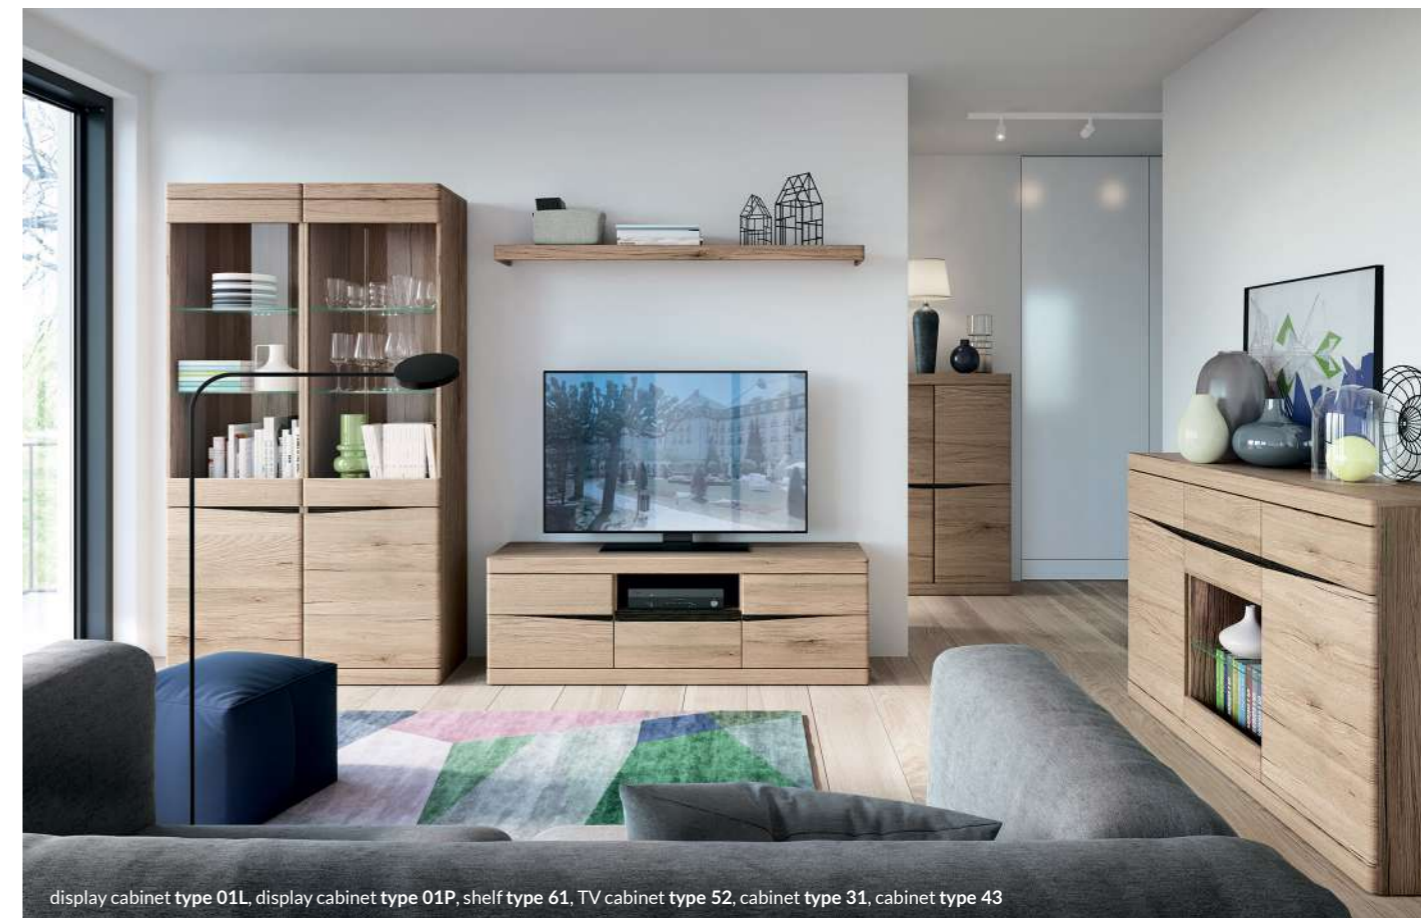

After a few seasons of ruling of navy blue and graphite, green is stepping into the limelight — this time in a fresh, new version. It's not intense bottle green anymore, but rather a subdued one with a touch of gray, elegant and atmospheric. In our collection, the green fronts were embellished with black printed vertical lines that amazingly go together with the metal legs of the furniture, which make cleaning easier. The original shape of each piece, with graphite interiors, features any trinket that we want to highlight.

Fabric Water Repellent

It's covered with a special protective layer, creating a hydrophobic coating to protect against quick liquid absorption. It prevents the fabric from immediately absorbing water, leaving the liquid condensed on the surface of the material. This gives you time to gently wipe up the spilled liquid using a soft cloth or paper towel.

calming ambiance

Classic, elegant bedroom - that describes this collection well. The wonderful walnut color, which is the quintessence of style, perfectly matches with neutral, sandy and glossy fronts, establishing a calming and soothing interior. The key feature is the upholstered beds, draped with fabric that matches the fronts. Each detail is meticulously crafted, creating a million-dollar look for the furniture at a much more budget-friendly price.

BROLO

bedroom design

Now you can enjoy the unique character of Brolo collection also in your bedroom! Bed with upholstered headboard, simple and compact night stands and, of course, the majestic, capacious wardrobe in two versions are a design dream come true. They can of course be combined with existing pieces from the living room collection, which allows for great flexibility in arranging your bedroom.

FRIBO

harmony in the bedroom

Bedroom is a special place in every home. It helps to calm down and regenerate, allows you to take a deep breath and recharge before a new day. Furniture from the Fribo collection makes your room cosy and filled with warmth. Beautiful decor in Golden Ribbeck Oak color and simplicity of the furniture form create a timeless sense of elegance. There are beds in the collection that have a raisable frame or ones with a drawer. Within the Fribo collection, there are also dressing wardrobes available in three different sizes.

LINATE

are you looking for functional elegance?

The Linate collection meets the expectations of our customers, coming up with pieces that will provide a beautiful bedroom space and, at the same time, will surprise you with its functionality. Be sure to check out the capacity of the mirrored wardrobe, in which you can freely check yourself out while trying on clothes or getting ready, and the comfy bed with liftable frame.

LYON BRIGHT

the perfect bedroom

Pleasant mornings and perfect evenings every day? We have a recipe for it! White furniture and wooden decor from the Lyon Light collection is a timeless combination that will suit any interior design. Pay attention to the bed, too. The liftable frame provides plenty of extra storage space and the upholstered headboard will always shine clean. The fabric has an innovative Easy Water Cleaning finish to easily remove stains and Water Repellent to make it harder to absorb liquid dirt.

Mattress' description:

- The 7-zone structure of the mattress provides optimal support to the spine and excellent adaptation to the shape and size of the body.
- Multipocket pocket springs allow precise and point adjustment, simultaneously maintaining stable support for each part of the spine.
- This model has two practical sides with different firmness - 3rd and 4th level. And deformation resistant Dynamic foam and elastic latex guarantee abiding comfort and quality for many years.
- Fabric used for the Tencel cover has natural and antibacterial qualities, it absorbs and wicks away moisture very well and dries quickly, allowing to maintain high hygiene of the mattress. For better ventilation, Air Wave mesh was sewn into the cover.

Mattress' description:

- The 7-zone structure of the mattress provides point support to the body's shape, while maintaining stable support for the spine.
- Dynamic foam, which was used in the mattress, is deformation resistant, guarantees long-lasting comfort and abiding quality for many years of use.
- The layer of coco coir mat hardens the mattress, simultaneously improving air-flow.
- The removable Bamboo knit cover contains natural viscose fibers derived from bamboo, which not only helps with thermoregulation, but also effectively wicks away moisture.
- Ventilating Air Wave mesh makes maintaining sleep hygiene significantly easier.

cashmere chic

The thing we like about teen's furniture — neutral cashmere base (suits all colors of walls and accessories), oak inlays (impart a more grown-up feel to the whole collection), lack of handles (safety measure for small children) and functionality (drawers with full extension). A particularly interesting feature is the suspended desk, which can also serve as a console table (especially appreciated by teenagers, who will gladly use it as a place for doing their makeup!). Such a desk takes up little space, contains 2 functional drawers, and is very impressive and chic. Of course, a regular desk is also included in the collection, along with elements such as a TV stand and a 120cm wide bed, once the room becomes a teenager's room.

duo of white and gray

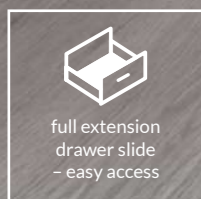

Flexi is a youth collection in versatile colors that'll look great in a child's room. The gently contrasting combination of colors and horizontal grooves on the fronts create an interesting union and highlight the aesthetics of the furniture. Another benefit is the rounded fronts and bodies, which make the collection not only look light, but be convenient. The Flexi collection is handleless, which further highlights its modernity and functionality.

everything where it belongs

The amount of dividers, niches, and cabinets in the Laser collection is truly impressive. This way, every item will find its place, which will keep at least a semblance of tidiness in the teenager's room. It will put an end to tossing all the clutter into the abyss of cabinets and then searching for it forever. We recommend this perfect set to create a place to study — a desk, a bookcase and a capacious shelf.

white is always safe

Who says a baby's room has to be multicolored? Well, that's just the way it is - there are dozens of toys, colorful books, markers, plushies, etc. There is a lot going on so sometimes it makes sense to „calm down“ this colorful dizziness with a secure, neutral base. The Novi collection will surely survive the challenges of changing tastes - matt fronts are perfect for walls both in delicate pastel colors as well as for bold, saturated colors and decorations.

interior with character

Recycled wood is a fashionable trend. It will work especially well in a teenager room, whose owner wants to stand out. Tidiness is not a priority in their head! Hence, spacious drawers and under-bed recesses that provide storage for various objects. What's more, on the decor, resembling raw wooden boards, fingerprints won't be visible.

all in one, one for all

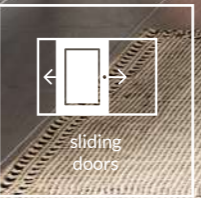

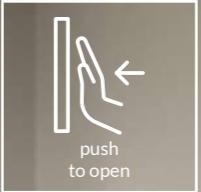

We admire collections that are multi-functional and allow us to change the character of a room. The Pozzi collection is ideal both for child's or teenager's room, but also in the living room or in a studio apartment. The combination of stunning green and oak-colored fluted sliding fronts makes the Pozzi collection unpretentious and casual, thereby creating an interior that is light and functional.

this can't go wrong

Each combination of pieces is a hit - thanks to the interesting geometric form, high, straight legs and minimalist handles that vanish and do not disturb the form of the furniture - you can flawlessly create various furniture arrangements that will fit perfectly into any interior and any style. A fashionable digital print imitating wooden slats fits perfectly with the white and color of the wood, creating an interesting and unpretentious mix.

for those 'more grown-up'

Teenager's room or studio apartment - if you need roomy units that store a lot, the Twenty collection is for you. The color scheme of the furniture is a great match for the entire color palette and the simple form adds a modern touch to the interior. However, if we want to warm up our space, it is good to enhance the collection with natural elements, such as wicker baskets or knitted containers and organisers, especially as the spaces between the shelves are ideal for this.

Feet: plastic
Integrated lighting: LED Flash
Optional lighting: Square (recommended by the manufacturer)

Headrest fabric
 - Water Repellent

A distinctive feature of the fabric is the shading effect - it appears to have different shades of color depending on the angle of light falling on its various parts.

Lighting overview

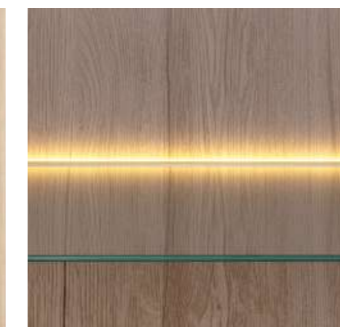

To illuminate the shelves you can use Led Clips, Zeta, Square or Prismatic. Check the manufacturer's recommendations in the description of each collection at the end of the catalogue.

ZETA

The Zeta luminaire is a clip-on light point mounted on a slab shelf. The light beam is emitted upwards and downwards.

PRISMATIC

The Prismatic luminaire is a striking way to illuminate the inside of a display cabinet, consisting of a metal cover with an integrated LED strip.

SQUARE

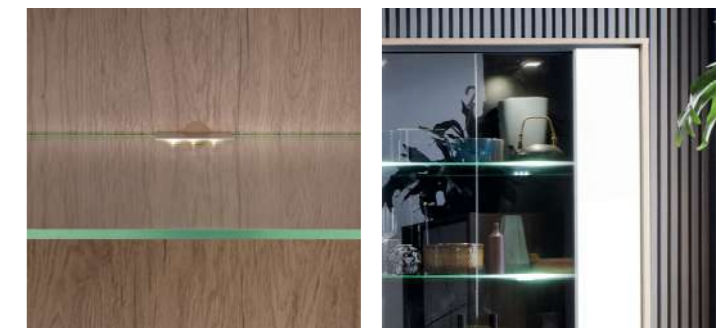

The Square luminaire is an excellent option for lighting up display cabinets. It's of small size, and easy to mount. Sold in sets containing a power supply and a switch.

FLEXI LAMP

The lamp has a modern and minimalist design with built-in USB input. You can mount it to your bed as well as your desk or shelf. Sold separately, there are sets of 1 (cold light hue) or 2 lamps (cold or neutral light hue) with a power supply and necessary cables available.

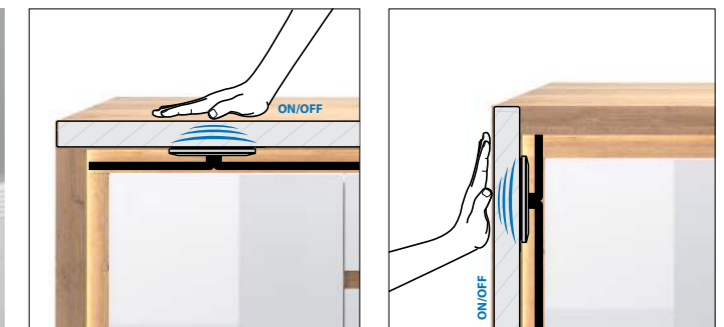

LED CLIPS

LED Clips - a small LED fixture designed to illuminate glass between 5 and 8mm thick. Applied to a glass shelf with a frosted edge, it creates an effect of a glowing glass edge.

TOUCH LIGHT SWITCH

You mount it internally to the body of the furniture (under the top or to the side), so the lighting can be switched on/off quickly and conveniently by simply touching the desired spot on the furniture. You don't need coils of cables wriggling around on the floor. Check out how easy it is!
